

BATCHMASTER ERP

EXTENDED PROFILE

OVERVIEW

BatchMaster ERP manufacturing software solutions support formula-based, process manufacturers in the food, chemical, nutraceutical, and life sciences industries, as well as hemp, CBD, and cannabis industries.

Batchmaster's process manufacturing software addresses formulation, packaging management, inventory, batch production, quality control, and assurance, costing, lot traceability and recall, industry-specific compliance and labeling, MRP planning, MPS scheduling, and mobile warehousing.

Batchmaster offers an add-on process manufacturing application that runs with leading financial applications, specifically QuickBooks, Sage 100 and 300, Microsoft Dynamics GP, and SAP Business One.

For those manufacturers looking to upgrade to an end-to-end ERP or replace their current ERP, Batchmaster offers industry-specific ERP solutions that support financials, sales, purchasing, supply chain, customer service, plus industry-specific process manufacturing.

Our process manufacturing applications can be deployed on one’s local server or run in the cloud in either a single or multi-tenant environment.
