ERPFOCUS

HORIZON MRP PLUS

EXTENDED PROFILE

HORIZON SOFTWARE INTERNATIONAL

OVERVIEW

Created by software company Horizon Software, from Illinois USA, MRP Plus is ERP functionality for companies, in North America and Canada, operating in the manufacturing industry. MRP Plus was launched in 1998 and works alongside the Microsoft Windows platform, including Windows 7.

Alongside MRP Plus is MRP Plus SBE, a specific option for small manufacturers. MRP Plus is an integrated, online, real-time, closed-loop, net-change manufacturing, service, planning, control, and analysis ERP software package. All manufacturing and financial operations are integrated and can be used across multi suites and multi-work environments. The software is available in multi-currency and multi-language and integrates with Excel and Access. Executive dashboards and reporting can be customized.

MRP Plus is sold as a complete package and includes the following modules: accounts receivable and payable, budgeting, planning and routing, costing, general ledger, inventory control and invoicing, MRP, purchasing, sales analysis and sales order delivery, processing, shop floor management and control, and work order control. MRP Plus is available installed on-site, via the web, and in recently released version 12 via cloud technology.

Horizon Software provides a full range of data security and central data storage options for customers using cloud technology.
