ERPFOCUS

XTUPLE ERP

EXTENDED PROFILE

xTuple
A CAI SOLUTION

OVERVIEW

xTuple is an open-source ERP and supply chain management solution designed to help growing businesses automate key processes like order taking, production scheduling, inventory management, and record keeping, ensuring financial data is synchronized across the entire organization.

INTEGRATION OPTIONS

xTuple integrates with platforms like Shopify, WooCommerce, and ShipStation to manage pricing, sales orders, taxes, and payments in-platform. Customer information and real-time inventory availability are synced automatically between the ERP and the eCommerce site.

Orders placed online can trigger automated workflows, such as sending pick tickets to the warehouse or generating work orders in a make-to-order environmen

The software gives decision-makers real-time information and reporting for enhanced visibility across the supply chain. xTuple can also assist with key compliance requirements, and its CRM functionality helps manage leads, track customer buying habits, and manage employees remotely.

If you don't have your own software developer, the basic package gives you access to support for technical setup and configuration. The premium package provides additional support hours to help you customize the software.
