ERPFOCUS

APTEAN FOOD & BEVERAGE ERP JUSTFOOD FOUNDATION EDITION

EXTENDED PROFILE

aptean

Ready for What's Next, Now®

OVERVIEW

Aptean Food & Beverage ERP JustFood Foundation Edition delivers food processors and food distributors a software application and a risk-reduced implementation that will address their business needs while providing a platform into which they grow. With the Foundation Edition, you get everything you need now and in the future – so your food company can get started on integrated ERP with an option to grow into more capability as your business needs change and expand.

This lets you unlock more functionality or add additional users when it’s the right time for your business. It also takes a fixed-price fee approach to training and implementation.

Aptean Food & Beverage ERP JustFood Foundation Edition includes all the core functionality most growing food companies require when transitioning from an accounting system or having a heavy reliance on Excel. After implementation, customers on Foundation Edition can move up to the richer functionality of Professional Edition as required and can choose between an on-premise deployment or cloud.

Aptean Food & Beverage ERP JustFood Foundation Edition includes the modules for financials, sales, purchasing, inventory management, costing, production, traceability & recall, quality management; and reports. Some warehouse management functionality, and Microsoft in the cloud – SharePoint Online, and Office 365 – are options in the JustFoodERP Foundation Edition.

Food companies such as Almondina, Sahale, Suncore, American Sprinkle, and Ellison Bakery have implemented JustFoodERP Foundation Edition.
