ERPFOCUS

CMIC

EXTENDED PROFILE

OVERVIEW

CMiC is the leading provider of unified, integrated, and innovative software solutions purpose-built for the construction industry. Their suite of solutions is designed to drive integrated project delivery, optimize workflows, and heighten office-to-field communications.

CMiC’s ERP is comprised of two product pillars: CMiC Financials and CMiC Project Management:

CMIC FINANCIALS

CMiC's construction accounting software provides comprehensive financial reporting tools to help finance teams optimize revenue, expenses, and financial management practices.
The suite includes applications such as Accounts Payable, Accounts Receivable, Consolidated General Ledger, and Billing.
Syncing all financial transactions with the general ledger and job costing systems eliminates duplicate or manual data entry.

CMIC PROJECT MANAGEMENT

CMiC's project management solution (Project Controls) helps users track project budgets, covering time, expenses, suppliers, and costs. It gives teams the tools to spot problems early and make adjustments quickly. With access to every version of project documents, teams can stay on top of changes and ensure smooth, successful project execution.
