EXTENDED PROFILE

OpenPro

OVERVIEW

An open-source ERP system, OpenPro is a software system that can support companies operating in a majority of industries.

OpenPro offers real-time insights into a range of business management disciplines, including accounting and financials, and manufacturing-focused MRP and distribution.

ERP-specific OpenPro features include a manufacturing execution system, material requirements planning, and a retail POS system.

Additional features to OpenPro include CRM, payroll, and HRMS. As an open-source system, these can be added as required by the user.

OpenPro can be used in 9 different languages and offers multi-currency functionality. The system is highly customizable due to its open-source structure.

OpenPro can be installed on-premise or hosted as a cloud system. A web-based ERP, OpenPro can be accessed via any device with an internet browser.
